Introduction I

PART I. Overview

Chapter 1. Hair Care Rides the Curl, *Jeffries* 1
Chapter 2. Happier Days for Hair Care?, *Davies* 9
Chapter 3. Extending the Hair Care Line with Fragrance, *Brewster* 15

PART II. Ethnic

Chapter 4. Global Hair Care Report: a Feel for Innovation, *Jeffries* 23
Chapter 5. Debunking Ethnic Hair Care Myths, *Doyle* 29
Chapter 6. Maintaining Ethnic Hair Care Leverage:
 an Interview with Patrick Obukowho, *Obukowho* 35
Chapter 7. Meeting the Needs of African Hair Care:
 an Interview with Chuck Warren, *Warren* 39
Chapter 8. Paradigm Shift for India's Hair Care, *Bhattacharya* 43
Chapter 9. Asian Hair: Its Properties, Physiology, Protection and the
 Market for Asian Hair Care, *Rocafort et al.* 49
Chapter 10. Ethnic Hair and Disorders of the Scalp, *Callender* 61

PART III. Physiology

Chapter 11. Inside the Hair: an Advanced Hair Biology Model,
 Schuller, Romanowski 71
Chapter 12. Approaches to and Characterization of
 Hair Growth, *Westgate et al.* 81

PART IV. Shampoo

Chapter 13. Shampoo Formulation: The Basics, <i>Klein</i>	93
Chapter 14. New Technology for Shampoos and Conditioners: Between the Shock Waves, <i>Westman</i>	99
Chapter 15. Working Up a Lather, <i>Vazquez</i>	109
Chapter 16. Deposition from Conditioning Shampoo: Optimizing Coacervate Formation, <i>Lochhead et al.</i>	115
Chapter 17. Advances in Polymers for Hair Conditioning Shampoos, <i>Lochhead, Huisinga</i>	123
Chapter 18. Efficacy of Coal Tar vs. Sodium Shale Oil Sulfonate for Treating Dandruff, <i>Gayko et al.</i>	137
Chapter 19. Esters from Vegetable Sources with Care Effects for Hair, <i>Morris et al.</i>	155
Chapter 20. Silicone Technologies as Delivery Systems via Physical Associations, <i>Newton et al.</i>	169
Chapter 21. Performance and Sensorial Benefits of Cationic Guar in Hair Care Applications, <i>Chiron</i>	183

PART V. Condition

Chapter 22. Formulating Hair Conditioners: Hope and Hype!, <i>Klein</i>	195
Chapter 23. Silicones for Hair Strengthening, <i>Johnson et al.</i>	201
Chapter 24. Anionic/Cationic Complexes, <i>O'Lenick</i>	211
Chapter 25. Anionic Organosilicones: Complexing Agents for Quaternary Compounds, <i>Vondruska et al.</i>	217
Chapter 26. Silicone Quaternary Microemulsion: a Multifunctional Product for Hair Care, <i>Ostergaard et al.</i>	231
Chapter 27. Using Polyquaternium-64 to Condition Damaged Hair, <i>Shimada et al.</i>	243
Chapter 28. Quaternium-91: a New, Multifunctional Hair Conditioning Ingredient, <i>Gao et al.</i>	257

PART VI. Styling

Chapter 29. Innovations in Hair Styling Technology, <i>Schueller, Romanowski</i>	271
Chapter 30. Advances in Polymers for Hair Styling, <i>Lochbead, Huisinga</i>	283
Chapter 31. Silicone Amino Elastomer Emulsion for Conditioning and Styling Performance, <i>Gomes et al.</i>	297
Chapter 32. Designing Emulsions for Relaxer Actives, <i>Obukowho</i>	311
Chapter 33. Styling Polymers in Mousses, <i>Brewster</i>	317
Chapter 34. Evaluating Polyimide-1, a Styling Resin for Gel and Mousse Formulations, <i>Clements</i>	327
Chapter 35. Antichaotropic Salts for Stabilizing Cysteine in Permanent Waving Solutions, <i>Shansky</i>	341
Chapter 36. Refractive Index Matching: Principles and Cosmetic Applications, <i>Sun et al.</i>	347
Chapter 37. A New Dimension in Hair Styling: VP/Methacrylamide/Vinyl Imidazole Copolymer, <i>Wood et al.</i>	361

PART VII. Color

Chapter 38. Dyeing to Get it Right, <i>Mason</i>	375
Chapter 39. Forever Young—Antiaging Hair Care: an Interview with Beth Johnson, <i>Schaefer</i>	383
Chapter 40. A Controllable Progressive Hair Dye Process, <i>Shansky</i>	387
Chapter 41. Advances in Polymers for Hair Coloring, <i>Lochbead</i>	397
Chapter 42. Multilayer Lamella Vesicles in Oxidative Dye Formulations: Characterization and Performance, <i>Gao et al.</i>	413

PART VIII. Sun Protection

Chapter 43. Using Natural Keratin Biopolymers to Protect the Hair, <i>Roddick-Lanzilotta et al.</i>	433
--	-----

Chapter 44. Protecting Against UV-Induced Degradation and Enhancing Shine, <i>Maillan et al.</i>	447
Chapter 45. Polyamide 2: an Innovative Photoprotection Polymer for Hair Care, <i>Hessefort et al.</i>	459

PART IX. Testing

Chapter 46. Texture Analysis to Formulate Hair Care Products and Select Packaging, <i>Smewing, Jachowicz</i>	477
Chapter 47. Torsional Behavior of Human Hair by Single Fiber Torsion Pendulum Method, <i>Kamath</i>	487
Chapter 48. In Vivo Quantitative Evaluation of Gloss, <i>Clémenceau et al.</i>	493
Chapter 49. Effect of New Regulations on Hair Coloring Products in the EU, <i>Hefford</i>	503
Chapter 50. Using Texture Analysis to Substantiate Hair Care Claims, <i>Jachowicz, Smewing</i>	511
Chapter 51. Recent Polymer Technologies for Hair Care, <i>Brewster</i>	527

PART X. Directory

Chapter 52. Hair Care Formulary	555
Index	579
